The Brunna Parede is reminiscent of the wall fans of the early 20th century. The fan head of the Brunna Parede wall mounted fan can be infinitely positioned vertically and horizontally across 180-degree arcs to provide maximum directional airflow. It can be mounted in small, awkward spaces or in front of HVAC ducts to make more efficient the heating, ventilation or air conditioning of any space. Constructed of cast aluminum, heavy spun and stamped steel, the Brunna Parede carries a limited lifetime warranty.
